

The diagram illustrates a cross-section of a road ditch (svodnice) and its connection to the road. Key features include:

- osy svodnice**: The centerlines of the ditch, shown as dashed lines labeled 'A' and 'B'.
- osa cesty**: The centerline of the road, shown as a dash-dot line.
- vyklínování svahů svodnice**: The ditch slopes, indicated by hatched areas.
- úlomky kamenů a zhutnění**: A layer of stone fragments and compaction at the base of the ditch slopes.
- odtok ze svahu nebo do příkopu**: A drainage path from the ditch slope or into a ditch, indicated by a wavy arrow.
- Dimensions**: The ditch width is specified as 800 mm at the top and 600 mm at the bottom. The slope length is marked as 500 mm.
- Angle**: The angle between the ditch slope and the road centerline is approximately 60° (*cca 60°*).
- Label**: **L = délka svodnice** (L = length of the ditch).
